

BF// 2/5

HONDA'S BF5 AND BF2 ARE EXTREMELY RELIABLE AND QUIET. THE LIGHTWEIGHT DESIGN AND ERGONOMIC CARRY HANDLES OF THESE ENGINES MAKES BOATING CONVENIENT AND FUN, RATHER THAN A HASSLE. HONDA'S ADVANCED ENGINEERING PACKS LOTS OF PERFORMANCE INTO A SMALL PACKAGE, COMBINING A LARGE NUMBER OF INNOVATIVE FEATURES IN THE LIGHTEST POSSIBLE PACKAGE!

CARE-FREE BOATING

PORTABLE POWER

Although these compact engines pack enough punch to push a boat out to sea, they're light enough to be carried back to the car! Thanks to the ergonomic carry handle fitted to each engine, the BF5 and BF2 can be taken anywhere. Despite their size, these engines boast all the benefits of Honda's advanced four-stroke technology, which is second to none. The BF5 features a 3amp battery charging outlet as standard equipment, as well as a safety lock-out system that allows the engines to be started only in neutral gear.

EASY AND CHEAP TO OPERATE

For increased control and reduced steering effort, the BF5 and BF2 each have a Twist Grip Throttle which ensures superior throttle friction and enhances response and manoeuvrability. Just like the rest of Honda's outboard range, these engines are also extremely fuel efficient.

THE RIGHT AMOUNT OF MUSCLE

Boaters can take advantage of significantly higher engine displacement for more low and mid-range power. Even at low revs, the BF5 and BF2 have solid and reliable torque to move heavier hulls than any other engine in their class.

EXCLUSIVE TECHNOLOGY & SPECIAL FEATURES

ROTATES 360° (BF2)

Get in and out of tight spots with ease, or go in any direction on the compass, with this **extremely manoeuvrable engine**.

CENTRIFUGAL CLUTCH (BF2)

This model comes standard with a centrifugal clutch. The engine is able to maintain a smooth idle and then upon advancing the throttle it automatically engages the propeller above idle speed. **It's like having a neutral position.**

FOUR-STROKE DESIGN

World-renowned Honda four-stroke quality combines proven reliability and superior fuel efficiency, with **no oil mixing**.

- Lightest 2hp four-stroke available! Even lighter than most two-stroke outboards.
- 1L integral fuel tank facilitates easy removal and portability as one unit. (BF2).
- Lightweight/compact design. Easy to transport and perfect for small tenders.
- Twist Grip Throttle ensures precise throttle control, while the throttle tensioner minimises driver fatigue.
- BF5 incorporates a safety lock-out system that permits the engines to be started only in neutral gear.
- BF5 features a 3amp battery charging outlet as standard equipment.
- 4-Front Corrosion Protection. A patented, 'double-sealed' multi-layered paint process. Sacrificial anodes and stainless steel technology, along with waterproof connectors, all enhance corrosion protection.
- CARB 2008 and EPA 2006 ultra-low emission compliant.
- OEDA three-star ultra-low emission rating.
