

FYRAN BOATS

560 Gulfcruiser

The 560 Gulfcruiser is based on the proven and highly successful 530 and 600 hulls. It provides a soft smooth ride in any conditions, as well as an easily driven hull for quick acceleration on to the plane. This hull shape also means less horsepower required and better fuel efficiency, lighter fuel loads, greater fishing range or a combination of them all!

The roomy cabin is fully lined and provides warm shelter from any weather for the kids and crew. Fyrans rugged 5mm aluminium hull has a combination of sealed buoyancy chambers and foam flotation giving a CPC rating of "UNsinkable" and total piece of mind.

Garaging dimensions available on request.
